

*Mixed Nuts and Fruit Bar
with Honey*

About Us

Area Tarım Ltd. Sti was established in 2016 with the support of TUBITAK. Our company is one of the few competent companies in our country in the field of work. Our adventure, which started in the plant tissue culture laboratory, continues with seed breeding and the production of our native Anatolian ancestral seeds. Area Tarım Ltd. Şti entered the snack product sector in 2022 with the Barbee brand with a nutritious, natural and healthy product that people of all ages can consume with peace of mind. The Honey, Oats and Peanuts we use in our products are produced by AREA TARIM, so we can guarantee both naturalness and a delicious product of high quality, and we also eliminate any problems that may occur during the raw material supply process. We believe that our products, which we love to make, will be enjoyed and consumed all over the world and become an indispensable snack.
